2100 South Western Ave
San Pedro, CA 90732

December 10, 2021

Dear Families and Friends of our Residents,

I hope you are all keeping well. I know that you want to help us to keep your loved ones safe and healthy also.

You've seen in the news that Covid cases are once again on the rise. And we need to be extra vigilant to keep the virus out of our Home and away from your loved ones.

The Los Angeles Department of Public Health has issued new guidelines that are effective **Dec. 15th, 2021**. These guidelines include the following:

All Skilled Nursing facility staff will be required to undergo routine screening testing once per week regardless of symptom status, vaccination status, recent close contact, or the facility's outbreak status.

All Skilled Nursing residents will be required to undergo routine screening testing once per week.

All visitors who are 2 years of age or older, regardless of vaccination status, must provide the facility with proof of either a Negative PCR test from a lab taken within 72 hours of entry or a negative point of care antigen test (rapid test) result taken within 24 hours prior to entry.

Visitors who have not undergone Covid-19 testing prior to the visit will be required to be tested at the facility at the time of entry.

Visitors who are unable or unwilling to provide proof of the required negative test will be offered a visitation area in an outdoor space.

We're sorry for this extra inconvenience, but we all know how fast this virus can spread and the devastating effects it can have. We count on you to help us to do everything we can to keep our residents safe and healthy. Thank you for your cooperation.

Sincerely,

Mother Margaret Charles, Isp

Administrator
